Good afternoon,

I am the Account Manager of our Access 2 Fibre Division for Quantum Air Fibre

We are currently working in conjunction with several Parish Councils across Lincolnshire with regards to rolling out Ultra-fast broadband via the NGA (Next Generation Access) scheme also known as Quantum. Quantum is not only Lincolnshire centric, aiming at eliminating costs for residents, we are also a Multi-Faceted Internet service provider supplying both Wired and Wireless solutions.

Where other large ISPs look at connections only within the main towns and villages, we assist to supply connection to all residents who live on the outer and that are more difficult to reach.

[We have expanded our network rapidly and are now poised to provide FTTP services across the County and beyond.](#)

I am looking at organising a meeting with yourselves with regards to the roll out of Fibre To The Premises within your local area to explore the process of bringing this service to more rural communities. We would like to be able to attend one of your Parish Council Meetings to be able to talk to you and the community about what we can offer the residents and go over any questions or concerns. The meeting is purely an opportunity to discuss your community requirements for internet speeds, the process of the installation and future further steps.

With sufficient community support for FTTP within the area there would be No cost involvement for yourselves or residents. Quantum will be fronting a portion towards the VAT which in turn is zero assisted by utilising the Government's Rural Gigabit scheme.

[Our company was born from the belief that everyone deserves the best possible internet access and this should not be limited to the larger cities. Lincolnshire is our home and of course will always have a network and outstanding local customer service and support.](#)

Please see attachment – I have created this specifically for small communities who are in contact with the Parish via social media such as Facebook and have made it easier to share the information. I look forward to hearing from you, and hope we can assist with the community needs.

[Kindest regards,](#)

Charlie Merrell  
Regional Account Manager
