Subject: Climate, Environment and Sustainability Survey

To: All Parish/Town Clerks, Parish Meetings

Dear Sir / Madam

I am writing to you in my role as West Lindsey District Council's Member Champion for Environment and Climate, to bring your Council's attention to a survey West Lindsey District Council is launching in connection with climate, environment and sustainability. The survey forms part of the work the Council is undertaking to develop a Climate, Environment and Sustainability Strategy and we would be extremely grateful if you could advise your Councillors of its existence and encourage them to discuss its content and respond, preferably as a collective body, or failing that as individuals. We would also like your Councillors to promote its existence within your community as we are keen to hear the views of as many residents of the District as possible.

As leaders and champions of local communities, the Council recognises the important role Parish and Town Councils fulfill. Learning of your community's thoughts, suggestions and concerns in relation to climate, environment and sustainability matters will be of great benefit as work develops to produce the Council's Strategy by May 2021.

The survey is open from Monday 6th July to Friday 14th August 2020. If you wish to know any more and to access the survey, please visit the Council's website at www.west-lindsey.gov.uk/climate/ which contains some useful information and advice. If you would like any additional information please email climate@west-lindsey.gov.uk.

I do hope that your Council will be able to respond to the survey and that you will also be interested in receiving updates and partake in a further planned consultation event later in the year.

Thanking you in advance of your co-operation

Kind Regards

ClIr Tracey Coulson
Member Champion for Environment and Climate
